Läge & omgivningar:

Located between Son Caliu and Torrenova, it was the first urbanization that was built in Calvià and one of the pioneer of Majorca, contemplated in 1934. There are three sand beaches and a small maritime club. It has a good hotel infrastructure with a series of complementary services. Right at the city limit, in the direction of Andratx, you can locate the cross del Pi dels Montcades , which commemorates the place where the Montcada brothers, collaborators of the king Jaume I during the islands conquest, were given funerary distinctions.
