Detaljer:

This beautiful building plot is idyllically situated in Sa Rapita, a charming coastal village in the south-east of Mallorca which captivates with the enchanting natural beach of Es Trenc, its exclusive marina, and its authentic Mallorcan atmosphere.

With a generous area of approx. 830 sqm, the plot offers an ideal basis for the construction of a detached house tailored to the personal ideas and requirements of its new owners. A basic project for the construction of an approx. 125 sqm villa with jacuzzi has already been submitted to the local authorities but can still be modified if required

The project plans foresee the construction of a single-level house with an openly-designed living/dining area with integrated kitchen, 2 comfortable bedrooms and 2 modern bathrooms, one of which is en-suite. The master bedroom will also have a spacious dressing room, and all rooms will have direct access to the external area. There are also 2 outside parking spaces.

The garden can be laid out as desired, and offers ample space for fruit trees and palms.

Truly a lovely location to realise your dream of owning your own home in one of the most desirable locations in Mallorca.
