Detaljer:

Attractive urban building plots are offered for sale in Ses Salines, located in the south-east of Mallorca. Ses Salines is an authentic and well-established village, known for its proximity to the famous salt flats and to some of the most beautiful beaches in the region, especially Es Trenc. The town offers excellent infrastructure with restaurants, cafés, shops, and a high quality of life all year round.

The offer includes 2 urban plots of 200 sqm each, situated in a quiet location on the south-eastern edge of Ses Salines. The surrounding area is characterized by residential development and provides a pleasant and peaceful living environment with good access to the town center.

There is currently no construction project in place, giving you the opportunity to plan, design, and realize your building project entirely according to your own ideas and requirements. Whether a modern town house or a traditional Mediterranean concept, these plots offer maximum flexibility within the applicable building regulations.

Additionally, two larger urban plots are available in directly adjacent locations, one measuring 214 sqm and the other 198 sqm, which can also be acquired if desired.
