### Detaljer:

For sale is an attractive urban building plot of 214 sqm located in Ses Salines, in the southeast of Mallorca. Ses Salines is an authentic and well-established village, known for its proximity to the famous salt flats and to the beautiful beaches of the region, especially Es Trenc. The village offers excellent infrastructure with restaurants, cafés and shops, as well as a high quality of life throughout the year.

The plot is situated in a quiet location on the southeastern edge of the village of Ses Salines. The surrounding area is characterized by well-maintained residential properties and offers a pleasant and relaxed living environment with good access to the village center.

There is currently no construction project in place, allowing the future owner to plan, develop and realize a project entirely according to individual preferences. Whether a modern townhouse or a classic Mediterranean residential concept, the plot offers a high degree of design freedom within the applicable building regulations.

In addition, directly adjoining the property, a further urban plot of 318 sqm as well as two additional plots of 200 sqm each are available and may also be acquired if desired.
