Detaljer:

This exceptional villa impresses with its unique location on the beach promenade of Torrenova with direct access to the sea. The special atmosphere of the surroundings and the direct proximity to the coast make this area a very desirable location.

Standing on a plot of 1.474 sqm, the villa has a constructed area of 487 sqm including 4 bedrooms and 4 bathrooms. Large window frontages allow the entry of ample natural light, and provide impressive views over the sea as far as the Palma coastline. A large living/dining area opens on to lovely terraces and gardens.

A highlight is provided by the well-maintained garden and large pool, from where breathtaking views can be enjoyed both day and night, with the terraces and garden providing direct access to the sea.

Further features include a garage, marble floors, air conditioning and underfloor heating, and on the lowest level there is a laundry room, a kitchenette, and a further area which could be used, for example, as a fitness room and sauna.

Läge & omgivningar:

Located between Son Caliu and Torrenova, it was the first urbanization that was built in Calvià and one of the pioneer of Majorca, contemplated in 1934. There are three sand beaches and a small maritime club. It has a good hotel infrastructure with a series of complementary services. Right at the city limit, in the direction of Andratx, you can locate the cross del Pi dels Montcades , which commemorates the place where the Montcada brothers, collaborators of the king Jaume I during the islands conquest, were given funerary distinctions.
